# FOUR YEAR UNDERGRADUATE PROGRAM (2024 – 28) DEPARTMENT OF MICROBIOLOGY COURSE CURRICULUM

| PAR  | T-A: Introduc                  | ction  | *   |                           |  |  |  |  |  |
|--|--------------------------------|--|-----|---------------------------|--|--|--|--|--|
| Program: Bachelor in Life Science<br>(Diploma/Degree/Honors) |                                | Semester - IV  |     | Session: 2024-25          |  |  |  |  |  |
| 1  | Course Code                    | MBSE-02 T  |     |                           |  |  |  |  |  |
| 2  | Course Title                   | Industrial Microbiology  |     |                           |  |  |  |  |  |
| 3  | Course Type                    | Discipline Specific Elective (DSE)   |     |                           |  |  |  |  |  |
| 4  | Prerequisite (If Any)          | As per Program   |     |                           |  |  |  |  |  |
| 5  | Course Learning Outcomes (CLO) | At the end of this course, the students will be able to –  > define the role of microorganism in industry  > explain the processing of the best microbial strains for the industry  > outline the fundamentals of fermenters and fermentation processes  > relate metabolic pathways for industrial products  > identify the production of various industrially important products |     |                           |  |  |  |  |  |
| 6  | Credit Value                   | 03 Credits Credit = 15 Hours - Learning & Obs  |     |                           |  |  |  |  |  |
| 7  | Total Marks                    | Max. Marks:  | 100 | Minimum Passing marks: 40 |  |  |  |  |  |

# PART – B: Content of the Course

Total No. of Teaching-Learning Periods (01 Hr. per period) - 45 Periods (45 Hours)

| Unit         | Topics (Course contents)   | No. of<br>Period |  |  |  |
|--------------|--|------------------|--|--|--|
| I            | Multidisciplinary nature of Industrial microbiology: Introduction, brief History, ancient Indian perspective, important characteristics of industrially useful microorganisms.  Upstream and Down-stream processing: Detection and assay of the product, Recovery and Purification, storage and packaging methods. |                  |  |  |  |
| II           | Scale up, Screening and Strain Development Strategies: Industrial sterilization, Isolation. preservation and maintenance of industrial strains. Production Media and Raw materials, Fermenter design. Types of fermentation: Aerobic and anaerobic Batch, fed-batch and Continuous fermentation.                   | 11               |  |  |  |
| III          | Metabolic pathways: Industrial production of citric acid, acetic acid, Lactic acid, Glutamic acid.  Vaccines and Hormones: Hepatitis vaccine, Rabies vaccine, insulin.   | 11               |  |  |  |
| IV V         | <b>Production of industrial fermentation products:</b> Fermented food and beverages, Ethanol, Amylases, Penicillin, Single Cell Protein, Biofertilizers and Biopesticides  | 11               |  |  |  |
| Key<br>Words | Scale up, Fermenter, Fermentation, Downstream processing, Metabolic pathways,  |                  |  |  |  |

# Part – C: Learning Resources

## Text Books, Reference Books and Others

#### Text Books Recommended:

- 1. Industrial Microbiology: Patel A. H. (1996). I edition, MacMillan India Limited publishing company Ltd New Delhi, India.
- 2. A Text Book of Microbiology: R. C. Dubey & D. K. Maheshwari
- 3. Industrial Microbiology by Prescott & Dunns, AVI Publishing Company Inc.
- 4. Biotechnology; V. Kumaresan, Saras Publications

#### Reference Books:

- 1. Modern Industrial Microbiology and Biotechnology: Okafor N. (2007).1st edition. Bios Scientific Publishers Limited. USA.
- 2. Industrial Microbiology: Casida LE, New age International (P) Ltd.

# Online Resources – e-Resources/ e-Books and e- learning portals

### Part – D: Assessment and Evaluation

**Suggested Continuous Evaluation Methods:** 

**Maximum Marks:** 

100 Marks

Continuous Internal Assessment (CIA): 30 Marks

End Semester Exam (ESE):

70 Marks

**Continuous Internal** 

Assessment (CIA):

Internal Test / Quiz - (2): 20+20

Assignment/ Seminar – 10

Total Marks -(By Course Teacher)

Better marks out of the two Test/ Quiz

+ obtained marks in Assignment shall be

considered against 30 Marks

**End Semester** 

Two Section - A & B

Exam (ESE):

Section A: Q1. Objective  $10 \times 1 = 10 \text{ Mark}$ ; Q2. Short answer type  $-5 \times 4 = 20 \text{ Marks}$ 

30

Section B: Descriptive answer type qts., 1 out of 2 from each unit -4X10 = 40 Marks
